

DE22**Multimedia display**

The DE22 is the successor of DM22, a 22" LCD multimedia display in stylish design offering complex solution, which can fulfil waiting area display function, while entertains clients with slide show, and gives extra information by displaying RSS feed.

These three effects are variable, using big number of templates, allowing great flexibility for the users.

The DE22 works with an embedded mini PC and communicates via TCP/IP protocol. The content appears on a web-based application.

Dimensions:

Height: 310 mm

Width: 528 mm

Depth: 50 mm

Power requirement: 90-264 VAC, 47-63Hz, max 50 Watts
